

S MOHAMED AHSAN

MERN STACK DEVELOPER | UI/UX DESIGNER | AI/ML

Location: Chennai, Tamil Nadu, India | **Contact:** ahsansaleem2006@email.com | +91 9884261429
GitHub | **LinkedIn** | **Linktree** | **My Portfolio** : <https://mohamedahsan-portfolio.vercel.app/>

SUMMARY

Versatile Software Engineer specializing in MERN Stack, Object-Oriented Programming (OOP), and Generative AI. Proven experience building REST APIs and predictive models through AI-focused internships & winning hackathons.

EDUCATION

Bachelor of Technology in AI & Machine Learning	2023 – 2027
Saveetha Engineering College Thandalam, Chennai	CGPA(SEM 5): 8.63
HSC – Computer Science	2011 – 2023
SBOA School & Junior College	

TECHNICAL & PROFESSIONAL SKILLS

- Data Science & Gen AI:** NLP, Generative AI (LangChain, DeepSeek API), Predictive Analytics (LSTM, XGBoost, Random Forest), TensorFlow, and PyTorch
- Web & App Development:** MERN Stack (MongoDB, Express.js, React, Node.js), TypeScript, Flask (CORS), FastAPI, REST API development, HTML/CSS
- UI/UX Design:** Figma (Prototyping & Wireframing), Usability Testing, Canva
- Python & Core CS:** Python, C, Java, and Object-Oriented Programming (OOPS)
- DevOps & Tools:** Jira, Confluence (Atlassian), Docker, AWS, Git, Postman
- Soft Skills:** Agile Scrum (Daily Stand-ups & Sprint Presentations), Problem Solving, Project Management, Leadership

PROFESSIONAL EXPERIENCE

AI Product Developer Intern, 6s Consulting (On-Site)

July 2025 - Aug 2025

- Our team operated under the **Agile Scrum methodology**, conducting daily stand-up meetings (**DSMs**) for progress updates and **Weekly Sprint** reviews through structured presentations.
- Contributed to the end-to-end development of the AI-driven product “DewDrop” using the **MERN** stack (**MongoDB, Express.js, React with Vite, Node.js**).
- Collaborated closely with cross-functional teams, leveraging project management tools such as **Jira** and **Confluence** (Atlassian.net) for agile workflow tracking and documentation.
- Worked on UI/UX prototyping with **Figma**, visual presentations in **Canva**, and integrated **LangChain** for AI-driven features—enhancing skills in full-stack development, AI integration, and collaborative product design.

Mentee, Codebyte (Remote)

Jan 2025 – Jun 2025

- Mastering core computer science concepts: Data Structures & Algorithms, **Object-Oriented Programming (OOP)** with Java, Operating Systems, Computer Networks, & Database Management Systems.

UI/UX Intern, Skill First Labs (On-Site)

Oct 2024 – Dec 2024

- Designed intuitive prototypes using **Figma**, improving user satisfaction
- Developed strong skills in ideation, Figma, UI/UX design, usability testing, and design documentation.

Web Development Trainee, Computational Intelligence Research Foundation (On-Site)

Jul 2024

- Built a functional and Responsive website using PHP for the backend and WordPress, **HTML, CSS, and JavaScript** for the frontend, hosted on a free domain. (In-Plant Training)

HACKATHONS & PROJECTS

E-Commerce Admin Suite, AMRAP Hydraulics + 6s Consulting (Capstone Project) Feb 2026 – Mar 2026

- Architected a **MERN**-based e-commerce admin suite (**TypeScript**) integrated with **Python** microservices, leveraging **Prophet + Croston** models via **FastAPI** to automate inventory **forecasting** and optimize stock levels using live production data
- Integrated **OSRM** for logistics optimization and deployed a **Docker**-containerized microservices suite with a real-time warehouse optimization dashboard.

Demand IQ – Time Series Forecasting (Stock Management) Dec 2025

- Engineered a robust **Predictive Analytics** pipeline using historical sales data to forecast demand and optimize inventory stock levels.
- Developed and deployed high-performance **REST APIs using FastAPI** to serve real-time demand forecasts for backend integration.

Taxonomist – GidyTechpreneur (Winner) Mar 2025

- Developed a high-performance **REST API using Flask** to serve machine learning predictions for policy evaluation.
- Integrated serialized ML models (.pkl) into a production-ready backend, ensuring seamless end-to-end deployment on Vercel.

ADDITIONAL INFORMATION

Lead Organizer & Head of Documentation | HackHustle 2.0 Jan 2026 - Current

- **Strategic Oversight:** Orchestrating the end-to-end lifecycle of a national **24-hour innovation** marathon, managing cross-functional teams to deliver a hackathon for **250 participants**.
- **Operational Infrastructure:** Designing and managing a comprehensive tracking framework to monitor team milestones, real-time feedback, and technical progress. Synthesized complex event data into actionable reports to optimize judge evaluations and post-event analysis.

Tech Society (Assistant Coordinator): Aug 2025 - Current

- Hosted "ML Royale," a competitive machine learning build challenge at Drestein '25, **Express.js & Kivy app development** in **Python**.
- Contributing as part of the central team of TechSociety, a student-led club.
- Managing 5 different communities with **300+ active members**

Certifications:

- Coursera – PyTorch, AWS
- DeepLearning.AI – NLP
- NPTEL – IoT Fundamentals
